PROFESSIONAL SUMMARY

Python / Django Implementation Specialist with over 6 years of experience in SaaS environments and enterprise digital systems. Experienced in server-side data rendering, managing relational database records, and configuring dynamic workflows using YAML. Proven track record of translating complex business requirements into technical implementations and client-facing system solutions.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, Django, HTML5, CSS3, JavaScript (ES6+), Jinja2, Liquid Markup
- **Data & Configuration:** JSON, REST APIs, YAML Configuration, Data Schema Mapping, Dynamic Forms, Relational Database Records
- **Web & Tools:** Figma, Git, Version Control, WordPress, cPanel, DNS Management
- **Methodologies:** Client Onboarding, Technical Troubleshooting, Agile / Scrum

PROFESSIONAL EXPERIENCE

Uptick Pty Ltd | Remote / Australia

Template Developer / Professional Services May 2021 – May 2026

- **SaaS Template Configuration:** Configured and optimized data-driven templates and dynamic forms within a high-scale SaaS production environment.
- **Django Data Architecture:** Utilized and extended Django template structures to dynamically query, filter, and format relational database records for enterprise clients.
- **Structured Data & YAML:** Managed structured data layouts and workflows using YAML specifications to accurately map system data fields.
- **Enterprise Client Implementation:** Acted as the technical point of contact during client onboarding, translating business workflows into functional software configurations.
- **Version Control & Maintenance:** Handled code deployments, version control workflows using Git, and routine regression testing to maintain live system stability.

Newfold Digital (Formerly Dreamscape Networks) | Onsite

Modification Specialist | October 2019 – April 2021

- **Technical Website Modifications:** Executed technical website modifications and system updates to ensure optimal platform functionality and modern standards alignment.
- **Platform Migration:** Contributed to major corporate platform migrations (Dreamscape to Newfold Digital), rapidly adapting to new internal repositories and deployment tools under tight deadlines.
- **Troubleshooting & Diagnostics:** Diagnosed and resolved hosting, core platform, and configuration bugs to minimize downtime and maintain service level agreements.
- **Technical Consulting:** Guided business owners through technical architecture settings, domain management, and structural system updates.

EDUCATION

Bachelor of Science in Electronics Engineering

Eastern Visayas State University / 2019
